JOIN OR CREATE YOUR TEAM: DEVELOP YOUR CRISIS PLAN

Experience the Confidence that Comes with Preparation

Participants will leave this training prepared to respond to a range of school tragedies and crises: deaths, homicides, natural disasters, suicides and more. A number of organizational options (district, regional, community) are presented to maximize team strength.

Each session is taught via Zoom. Participants break into small groups for activities to take knowledge into skills. Using this training and our Crisis Resource Manual, your school or district will have an organized team and a solid plan of action for whatever comes your way.
